PROFESSIONAL SUMMARY

Experienced in data science, business analysis, and machine learning, with proven leadership in achieving exceptional results. A dedicated team player who continuously seeks to learn and implement new strategies.

EDUCATION

Atharva College of Engineering, Mumbai University, India Expected: June 2025
Bachelor of Engineering in information Technology with *Distinction* (CGPA: 8.9/10)
Relevant Courses: Artificial intelligence & Data Science, DataMining and Business Intelligence, Introduction to Flask, Python Programming, Data Analytics and Web-Development

Shri Tikamdas Purshottam Bhatia College of Science, Mumbai, India March 2021
Secured Higher Secondary School Certificate Examination with *Distinction* (84.6%)

Poorna Prajna High School Education, Mumbai, India March 2019
Secured Primary School Certificate Examination with *Distinction* (83.5%)

PROFESSIONAL EXPERIENCE

The Encryptix , New Delhi, India June 2024 - Present
Machine Learning Intern
- Created 2 Main projects using NLTK(Natural Language ToolKit) in SMS Spam Detection and Movie Genre Prediction.
- Learned and Implemented some new concepts like TF-IDF , Stemmer , Punkt and Multinomial Naive Bayes Model on this project.
- Contributed this Project to open source such as Kaggle and maintained a separate Github Repository for this project.

The Spark Foundation, Singapore June 2024 - July 2024
Data Science and Business Analyst Intern
- Successfully developed and implemented various data science models, including Linear Regression and Logistic Regression (Supervised ML Algorithms), to address and solve complex problems.

- Acquired extensive hands-on experience in **business analytics**, utilising data-driven methodologies to support **decision-making processes** and deliver actionable **business insights** and **solutions**

Brainheaters, Mumbai, India

May 2023 – Jan 2024

Project Management Intern

- **Successfully led a team** in content creation, social media management, and community engagement throughout the **full product lifecycle**.
- **Managed and expanded a 75K+ student community** across **385 engineering colleges**.
- **Created** study materials and videos on **AI, ML**, and other **computer science** subjects.

Transcurators- the content factory, New Delhi, India

April 2023 – Feb 2024

Data Science Subject Matter Expert(SME)

- Created personalised **Data Science** based questions on **statistical analysis** and **machine learning algorithms** for various organisations.
- Reviewed and validated content to **ensure accuracy** and appropriate difficulty level of questions

MAJOR PROJECTS

Project 1 – Sport Club management

- The project focused on managing individual sport clubs, specifically streamlining ground and match bookings. This led to a more efficient and effective club management process.
- Technology used – HTML, CSS, Javascript and bit of Python

Project 2 – E-Restaurant(QR-code System)

- The project aimed to streamline food ordering by allowing users to scan a QR code on their devices, facilitating contactless ordering and payment with a friendly user-interface.
- This project was built due Covid Situation.
- Technology used – HTML, CSS, Javascript, Node.js and SQL

Project 3 – Disaster Management System Using CNN Algorithm (Multi-Class)

- The project aimed to Classify different disasters and provide Medical Resources to the people in need through a website Application which is built using Flask.
- The Dataset used to trained the model here is web scraped and some training images were taken from Kaggle
- Technology used – HTML, CSS, Javascript, Flask and Python

SKILLS AND COMPETENCES

Technical Skills: Python, Django, SQL, ML

Personal Strength: Communication, Team Player, Spearheaded

Software: Vscode, Jupiter, Pycharm, Slack, Clickup

CERTIFICATIONS

Data Science and Machine Learning Certification, Ybi Foundation issued on July 2024

Introduction To Database and SQL, Great Learning issued on June 2024

Data Analytics Certification, Cloud Counselage Pvt Ltd issued on June 2024

Project Management Certification, Cloud Counselage Pvt Ltd issued on June 2024

Introduction to Programming using Python, Scaler issued on Mar 2024

CO-CURRICULAR ACTIVITIES

Technical-Volunteer of Ember , Atharva College of Engineering	Jan 2024 - April 2024
--	-----------------------

Management Trainee at IEEE , Atharva College of Engineering	August 2023-Nov 2023
--	----------------------

College Ambassador , Brainheater	May 2023-Nov 2023
---	-------------------

Class Representative , Atharva College of Engineering	July 2022-Nov 2022
--	--------------------

EXTRA - CURRICULAR ACTIVITIES

Technical & Non-Technical writer , Medium	August 2024-Present
--	---------------------

Volleyball Captain , ACOE	July 2023 - May 2024
----------------------------------	----------------------
